PROFESSIONAL SUMMARY

Business Analytics master's student at Grand Canyon University with hands-on experience in revenue/operations analytics, CRM data hygiene, dashboard reporting, and documenting cross-functional workflows across Sales, Marketing, Operations, and Finance. Seeking a business or finance analytics early-career role where I can turn operational and financial data into value for a company.

EDUCATION

Grand Canyon University

Master of Science, Business Analytics

Phoenix, AZ

Expected Feb 2027

- Coursework: Data Visualization, Statistical Modeling, Business Intelligence, Financial Analytics, Python for Analytics, Advanced Excel

Universidad San Francisco de Quito (USFQ)

Bachelor of Science, Business Administration & Finance

Quito, Ecuador

Graduated May 2025

- Coursework: Corporate Finance, Financial Planning & Accounting, Business Statistics, Quantitative Methods for Investments, Operations Management

EXPERIENCE

Business Operations Analyst

FomoPlanes

Dec 2024 – May 2025

Quito, Ecuador

- Built 5+ dashboards in Excel and Python (pandas) to track revenue, attendance, and KPIs across 30+ live events, giving leadership a single source of truth for performance.
- Conducted variance analysis on event budgets (2,000+ attendees), modeled revenue and cost assumptions, and recommended corrective actions informing pricing and staffing decisions.
- Analyzed 50+ posted events user engagement patterns across marketing and operational channels in real time to optimize consumer acquisition and retention hypotheses.
- Consolidated and modeled datasets across multiple systems; translated findings into stakeholder-ready reports for Operations, Marketing, and Finance leads.

Pre-Evaluation Specialist – Lopes Center

Grand Canyon Education

Apr 2026 – Present

Phoenix, AZ

- Evaluate prospective transfer students' transcripts to produce preliminary credit estimates, applying structured evaluation guidelines to support enrollment decisions.
- Perform high-volume transcript data entry and validation across 100+ student records daily with 100% accuracy, safeguarding data integrity for downstream reporting.
- Process 40+ degree-program pre-evaluations per day, flagging exceptions and preparing transfer-credit documentation for Enrollment Counselors across 4 teams.

Administrative Assistant Intern

Corruempaque CIA LTDA

Sept 2023 – May 2024

Quito, Ecuador

- Maintained 20+ recurring Excel reporting workflows, standardizing formats and adding validation logic to improve consistency and reporting accuracy.
- Supported cost and operational data analysis; documented data processes to reduce onboarding time for new team members.

PROJECTS

Project Harbor (Valuation & Corporate Finance)

- Built a four-method valuation of a hypothetical Salesforce/HubSpot acquisition supporting a \$300/share recommendation, with a fully linked Excel model and 20-page board memo.

Project Anchor (Data Analysis & Predictive Modeling)

- Analyzed churn across 7,043 customers, built a model flagging at-risk accounts and drivers of attrition, and designed a focused, positive ROI retention program.

TECHNICAL SKILLS

Programming & Querying: SQL, Python (pandas), R

BI & Visualization: Tableau, Power BI, Microsoft Excel (advanced: pivot tables, VLOOKUP, modeling)

Platforms & Tools: Bloomberg Terminal, CRM systems

Methods: KPI tracking, dashboard development, variance analysis, revenue/cost modeling, A/B testing, data governance

Languages: English (fluent), Spanish (native)
